

Risk Management Professionals and CGE Risk Management Solutions invite you to a two-day

Risk Analysis Course

Date

January 24-25, 2012

Location

300 Goddard, Suite 200
Irvine, California, USA 92618

Method and Software Training

Creating operationally-relevant Risk Analyses using the BowTie method

Risk Management Professionals and CGE Risk Management Solutions invite you to attend the upcoming Risk Analysis Course. In this two day course, you will become familiar with the methods and their supporting software tools of the complete and integrated Governors Risk Management package.

By means of practical case studies and real-life examples, you will learn to apply the methods in your own work environment. Using workshops and interactive sessions, the trainers will make sure that you go home a practiced user of both the methods and software tools.

After completion of the course, you will not only know how to apply the methods but also how to use the software to its full potential.

Registered attendees are entitled to purchase the BowTieXP software at a discounted rate of 20%. The offer is valid for 3 months after the training.

Program

Day 1

Risk Analysis using the BowTie method

- Introduction into Operational and HSE Risk Management
- The BowTie method in Risk Management
- Extensive BowTie theory
- Interactive BowTie workshops
- Managing Key Performance Indicators in Risk Management
- Learning from incidents, integration of incident analyses (TRIPOD) into a BowTie
- Best practices

Day 2

BowTieXP software training

- Step by Step diagram building
- Linking to the Management System
- Demonstrations and Hands on Learning
- Reports and Outputs
- Overview of additional applications of the BowTie Software (JSA, Incidents and BowTies, using BowTie with SharePoint, share your BowTies via Web)
